

NEW ZEALAND OLYMPIC COMMITTEE BOARD MEMBER VACANCIES X 2

- Inspire excellence and pride in New Zealanders
- Seeking experienced Board members
- Rare opportunity to contribute at the highest level of sport in NZ

The New Zealand Olympic Committee sits at the pinnacle of high-performance sport in New Zealand and represents both the Olympic and Commonwealth Games Movements. Established in 1911, we have the unique mandate to select and send teams to the Olympic and Commonwealth Games, promoting the Olympic and Commonwealth brands and values. Our athletes and teams are at the heart of our organisation, showcasing our unique culture and values on the world stage, and promoting excellence and innovation. As a charitable organisation we rely heavily on driving commercial revenue, philanthropic support and other funding partnerships, including with High Performance Sport New Zealand.

Two of our Board Members are leaving after serving their maximum tenure, leaving vacancies for two new Board Members. This is an opportunity to contribute your strategic, commercial and governance skills to our inspiring, high profile and hard-working organisation. In particular, we are seeking expertise in risk management, commercial acumen and marketing, backed up with governance expertise. An Olympian with lived high-performance experiences would be valuable and we would like at least one of the new appointees to support our bicultural development as part of our Māori cultural sub-committee. Most importantly, you will be a hard-working, committed team player, checking your ego at the door. The successful candidates will bring a passion for everything that the Olympic Movement represents and will embrace and champion our team culture of Manaaki. Our aim is to inspire excellence and pride, in New Zealanders and enable our athletes to achieve their potential on the world stage.

Would you like to join us?
